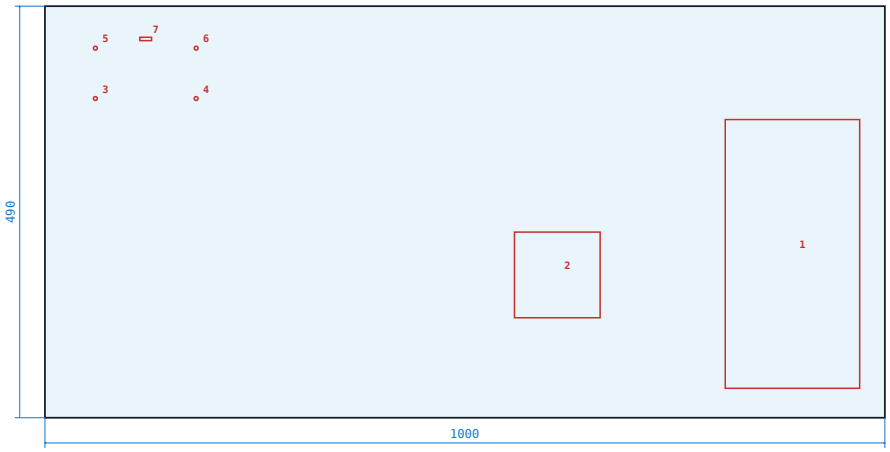
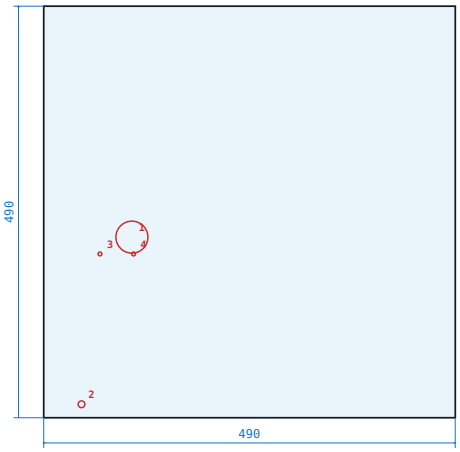
FRONT WALL — seen from the front

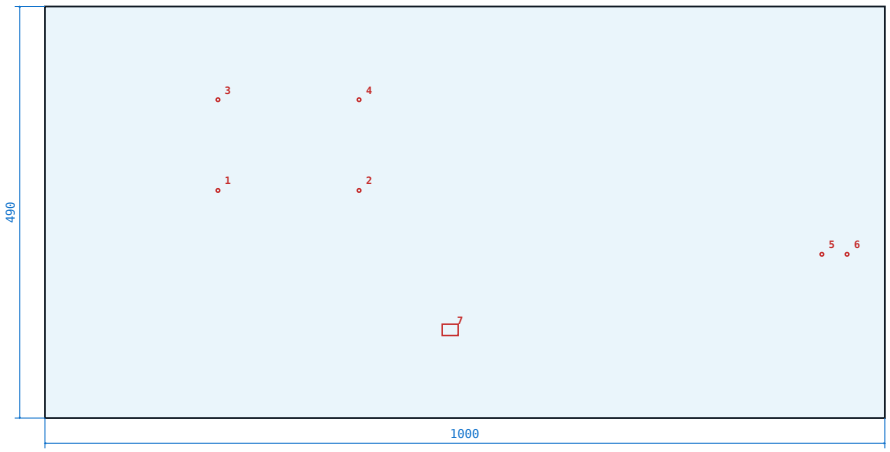


LEFT WALL — outdoor side

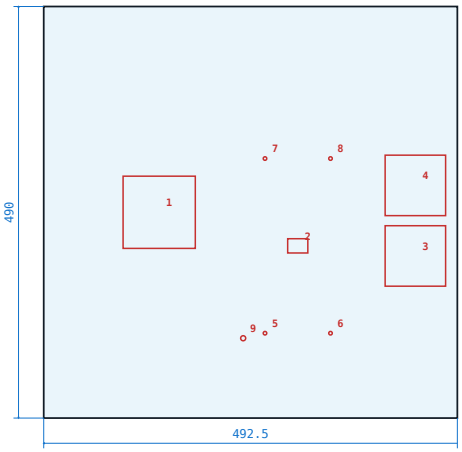


PART

BACK WALL — seen from inside



FALSE CEILING — from below



ROOF

CUT-OUTS — centre positions in mm, measured in each view from its left and bottom edges

Front wall

1 door opening (door panel 180 × 340) @ 890 from left, 195 from bottom
2 pass box opening 102 × 102 @ 610 from left, 170 from bottom
3 HMI standoff M4 @ 60 from left, 380 from bottom
4 HMI standoff M4 (same) @ 180 from left, 380 from bottom
5 HMI standoff M4 (same) @ 60 from left, 440 from bottom
6 HMI standoff M4 (same) @ 180 from left, 440 from bottom
7 HMI ribbon slot @ 120 from left, 451 from bottom

Left wall (outdoor side)

1 fresh-air compressor intake Ø38 @ 105 from left, 215 from bottom
2 24 V supply cable gland Ø8 @ 45 from left, 16 from bottom
3 compressor bracket M4 @ 67 from left, 195 from bottom
4 compressor bracket M4 (same) @ 107 from left, 195 from bottom

Partition wall

1 supply duct 3
2 exhaust termi
3 exhaust termi
4 PDT-101 refer
5 PCB harness s

Back wall

1 PCB standoff M3 @ 206 from left, 271 from bottom
2 PCB standoff M3 (same) @ 374 from left, 271 from bottom
3 PCB standoff M3 (same) @ 206 from left, 379 from bottom
4 PCB standoff M3 (same) @ 374 from left, 379 from bottom
5 MT-106 sensor M3 @ 925 from left, 195 from bottom
6 MT-106 sensor M3 (same) @ 955 from left, 195 from bottom
7 exhaust collector C into the plant room 19 × 13.5 @ 482.5 from left, 105 from bottom

Clean-room false ceiling

1 ceiling H14 BIBO terminal 86 × 86 @ 137.5 from left, 245 from bottom
2 LAF supply drop 24 × 17 @ 302.5 from left, 205 from bottom
3 ceiling H14 BIBO terminal 2 72 × 72 @ 442.5 from left, 193 from bottom
4 ceiling H14 BIBO terminal 3 72 × 72 @ 442.5 from left, 277 from bottom
5 LAF hanger Ø4 @ 263.5 from left, 101 from bottom
6 LAF hanger Ø4 (same) @ 341.5 from left, 101 from bottom
7 LAF hanger Ø4 (same) @ 263.5 from left, 309 from bottom
8 LAF hanger Ø4 (same) @ 341.5 from left, 309 from bottom
9 luminaire cable Ø6 @ 237.5 from left, 95 from bottom
